Financial Performance

AI Investment Summary

Macrotech Developers Ltd currently faces multiple financial challenges that increase investment risk. It currently has moderate profitability, average capital efficiency, steady revenue growth, high quality cash-flow quality and conservative leverage. The overall financial quality score is 37.2/100. Key strengths include: Return on equity improving for three consecutive years reflects strengthening business quality and capital efficiency.; Profits are compounding faster than revenue, indicating improving operating leverage and scalability.; Operating profit margin above 25% indicates strong pricing power and cost discipline.. Key risks include: Two consecutive years of negative free cash flow point to weak cash generation.. Investment recommendation: Reduce. Overall, the company appears to be financially weak with elevated investment risk.
